

Program Name: Alternative Water Supply (AWS)
Project Name: **Alternative Water Supply Grant**
Project ID: 4000 (Formerly Project ID 3900)
Lead Agency: SFWMD
Authority: Chapter 373.707, Florida Statutes

Strategic Plan Goal(s) Addressed: 3.C.3

Measurable Output(s): 287 MGD of capacity added to water supply system District-wide between FY2006 - FY2013. From FY2009 - FY2015, water supply capacity created was 56 MGD.

Project Synopsis: SFWMD has a program of cooperative funding with local governments and other entities to assist in their development of alternative water supplies. Since FY1997, this program has invested approximately \$194 million for the construction of over 490 projects. In 2005, the Water Protection and Sustainability Program established annually recurring State funding, when available, with a required match by the water management districts, which further supported alternative water supply development. No funding was allocated during FY16. For the period FY09 - FY16, \$44 million in AWS funding, including reallocated amounts, was budgeted for local government and other partners with \$10.9 million provided by the State. This funding was used to assist 92 AWS projects that created 56 MGD of additional water supply capacity. The AWS program is now part of the Cooperative Funding Program, along with Water Conservation and Stormwater Management projects.

Current Status:

Two projects by the City of Naples - Reclaimed Water System Expansion - Phase IV and the ASR Well #4 are currently underway.

Cost: \$35.4M expended from program for the period FY09 - FY16
Project Development: \$35.4M

Project Schedule:

Start Date: 1997

Finish Date: Ongoing/annual grants - current projects to be completed by September 2016.

Detailed District Project Budget Information

Through 2007	2008	2009	2010	2011	2012	2013	2014	2015	2016	TOTAL
\$136,386	\$33,100	\$8,850	\$1,370	\$6,050	\$2,720	\$2,808	\$2,545	\$0	\$1,080	\$194,909
