

**Program Name:** Everglades Cooperative Invasive Species Management (ECISMA)  
**Project Name:** Early Detection Rapid Response  
**Project ID:** 2616  
**Lead Agency:** ECISMA

**Strategy and Biennial Report Objective Addressed:** 2-B.2  
**Invasive Species Strategic Action Framework Goal:** 2

**Measurable Output(s):**

ECISMA will assess, coordinate and initiate rapid response to new invasive species. Measurable output will be the number of species assessed and the associated response actions.

**Project Synopsis:** ECISMA will continue to coordinate, assess and respond to new invasive species, using the ECISMA EDRR plan as a framework. Invasive species assessed will have been reported to ECISMA via EDDMapS or 1-888-Ive Got 1. The invasive species that are currently considered priority rapid response candidates:

*Bruguiera gymnorhiza, Chrysopogon aciculatus, Dalchampia scandens, Heteropterys glabra Petenia splendida*

**Current Status:** Ongoing management of ECISMA priority EDRR species through ECISMA workdays and contracts. Florida Fish and Wildlife Conservation Commission provides funding for rapid response for new invasive species documented on Florida Cisma EDRR plant lists. The National Park Service, Broward County, Miami-Dade County and others have provided personnel and supplies to respond to newly detected invasive species eradication efforts.

**Project Schedule:**

Start Date: 2014 Finish Date: TBD

**Detailed Project Budget Information**

	2014	2015	2016	2017	2018	Total
<b>Federal</b>	\$2,000					<b>2,000</b>
<b>FWC</b>	\$15,000	\$15,000	\$50,000	\$50,000	\$50,000	<b>180,000</b>
<b>Friends of ECISMA</b>	\$30	\$10,000	\$10,000	\$10,000	\$10,000	<b>40,030</b>
<b>Total</b>						<b>222,030</b>
